ADEBISI VICTOR ADEOLU

Frontend Engineer | UI/UX Designer | Graphics Designer

Lagos, Nigeria | +234 813 384 9382 | vicckyclef@gmail.com | behance.net/vicckyclef

PROFESSIONAL SUMMARY

Computer Engineering graduate of Olabisi Onabanjo University with hands-on experience as a Frontend Engineer, Full Stack Developer, UI/UX Designer and Graphics Designer. Combines strong technical skills in building responsive, user-focused web interfaces with a designer's eye for visual detail, an uncommon pairing that helps bridge the gap between design and development.

Has worked with international and local organisations, from an internship with Gen XR in London to freelance design work for clients since 2020, and has additional experience in training coordination and operations management. Reliable, adaptable and comfortable working both independently and in teams. Seeking an opportunity to contribute to a team building high-quality digital products.

CORE COMPETENCIES

- Frontend engineering: building responsive, accessible and user-friendly web interfaces
- Full stack development: building frontend applications and backend services
- API testing and integration: testing APIs and connecting third-party applications to company tools
- Deployment: releasing applications through CI/CD pipelines
- UI/UX design: designing user interfaces and user experiences in Figma
- Graphic design: creating visual assets for digital, social media and print use
- Design-to-code translation: turning design specifications into clean, functional interfaces
- Training coordination and operations management: organising people, schedules and resources
- Client communication: gathering briefs, presenting concepts and handling feedback

WORK EXPERIENCE

Frontend Engineer (Intern) **2025**

Gen XR, London

- Built frontend applications and backend services for the company's products.
- Tested the APIs and tools built by the company to ensure they worked as intended.
- Tested third-party applications and integrated them with the company's tools and APIs.
- Built demo applications to showcase the company's products.
- Deployed applications through CI/CD pipelines.
- Participated in the software engineering team's development and code review processes.

Training Coordinator and Operational Manager **2025**

Graceman IT Concept Ltd

- Coordinated training programmes, including scheduling, delivery logistics and follow-up with participants.
- Managed day-to-day operations, aligning tasks, resources and team members with organisational goals.
- Served as the point of contact between trainees, instructors and management to keep programmes running smoothly.

- Monitored the progress of trainees and gathered feedback to improve the quality of training delivery.
- Kept the team organised and accountable by tracking tasks, deadlines and operational needs.

Freelance Graphics Designer **2020 – Present**

Self-employed

- Design visual assets for clients, including social media graphics, flyers and other marketing materials.
- Meet with clients to understand their briefs, develop concepts and refine designs through feedback and revisions.
- Manage multiple projects and deadlines independently, from first brief through to final delivery.
- Maintain consistent visual identity across a client's digital and print materials.
- Built long-standing design experience of more than five years while studying and working in tech.

EDUCATION

Olabisi Onabanjo University, Ago-Iwoye, Ogun State **Graduated 2025**

Bachelor's Degree in Computer Engineering

- Studied core computer engineering subjects, including programming, software development and computer systems.
- Final-year project: Artificial Intelligence Chatbot in Enhancing Healthcare Systems.

TRAINING

Full Stack Development and Graphics Design Training **2024**

Hiit Plc, Ikeja, Lagos

- Trained in frontend and backend web development, building a foundation in full stack development practices.
- Trained in graphic design principles and tools, building visual assets as part of the programme.

PROJECTS

Grillnite | UI/UX Designer | Figma

- Designed a food ordering and restaurant delivery web app, from homepage through sign-up, menu browsing and checkout.
- Designed key user flows including account sign-up/login, restaurant menu pages (overview, photos and reviews) and the checkout process.
- Built a user dashboard and maintained a consistent visual and interaction style across every screen.

College Week Design | Graphics Designer | CorelDRAW, Adobe Illustrator, Adobe Photoshop
College of Engineering and Environmental Studies, Olabisi Onabanjo University

- Designed the full visual identity and promotional materials for the college's College Week celebration.

Departmental Week Branding | Graphics Designer | CorelDRAW, Adobe Illustrator, Adobe Photoshop
Computer Engineering Department, Olabisi Onabanjo University

- Designed the branding and visual materials for the Computer Engineering departmental week.

Career Clarity Campaign | Graphics Designer | Adobe Illustrator, Adobe Photoshop
Teengress Development Foundation

- Designed a social media carousel campaign to help Nigerian teenagers gain career clarity before university.
- Developed a consistent visual system (colour palette and typography) carried across the full carousel series.
- Contributed to other ongoing design projects for the Foundation.

SKILLS

Frontend: Responsive Web Development | User Interface Development | Design-to-Code | Cross-Device Compatibility

Full Stack: Frontend Applications | Backend Services | API Testing and Integration | CI/CD Deployment | Code Review

Design: UI/UX Design | Figma | Graphic Design | Visual Design | Brand Consistency | Social Media and Marketing Graphics

Professional: Training Coordination | Operations Management | Client Communication | Team Collaboration | Time Management | Problem Solving

Tools and Technologies: Figma | CorelDRAW | Adobe Illustrator | Adobe Photoshop | Adobe Lightroom | Microsoft Word | Microsoft Excel
